732-351-9102

Union Beach, NJ, 07735, United States

Aspiring software developer with a passion for problem-solving and expertise in full-stack development. Currently mastering JavaScript, Python, React, and Node.js through hands-on projects. I excel in collaborative environments and I am eager to connect with professionals to drive technological advancements.

## Work Experience

### Projects

#### Fruit Search

Jul 2024 - Jul 2024

Developed a Fruit Search application to allow users to search for information about various fruits through an interactive and user-friendly interface. This project involved creating both front-end and back-end components to deliver a seamless search experience.

#### Jeopardy

Jul 2024 - Jul 2024

Developed a web-based Jeopardy game application that simulates the classic television quiz show. The application features a dynamic game board with categories and clues, allowing users to test their knowledge in a competitive format.

#### Hacker News Client

Jul 2024 - Jul 2024

Developed a client application that interacts with the Hacker News API to fetch and display news articles, comments, and user information. This project involved building a user-friendly interface to present real-time data from the popular Hacker News platform.

#### Database DJ

Aug 2024 - Aug 2024

Developed a robust database-driven application designed to manage and organize music tracks and playlists. The project aimed to create a comprehensive solution for music enthusiasts and DJs to efficiently curate, search, and manage their music collections.

## Core Skills

Python, React, Node.js, web development, Front-End Development, Back-End Development, Version Control, Testing & Debugging, Express, fetching, APIs, Version Control, Git, GitHub, GitLab, Docker, AWS, Agile, Command Line Tools, NPM, Bash, Command-Line Scripting, error management, JavaScript

## Education

#### Springboard

Dec 2023 - Present

**Software Engineering Certificate** Software Engineering

## Languages

**Arabic** (*fluent*), **English** (*fluent*)

**Interests**

Technology Trends, Tech Meetups & Conferences, Digital Arts & Design, Audio Engineering, Cultural Exploration, Health & Wellness
